

Lawson Cemetery, East of K-25

AEC No Number

Location: Foresters found another cemetery near K-25 about 1976. It is about 1 1/2 miles west of the Silvey Cemetery, south of a curve in the West Quarry Road, and about 3/8 of a mile north of the Oak Ridge Turnpike. It was identified as a cemetery by grave-like impressions, there being no marker of any kind. It is probably on Tract J-953, obtained from Clarence Lawson. It appears to be a very old cemetery.
