SUBJECT: ADOPTION OF THE APPROPRIATION ORDINANCE FOR FY2018

Introduction

An item for City Council’s consideration is the fiscal 2018 Budget Appropriation Ordinance reflecting appropriations for the various City Funds as presented in the proposed budget document. The presented property tax rate is $2.56 per $100 of assessed valuation as outlined in Section 2 of the Ordinance, which is a 4-cent tax increase over the fiscal 2017 tax rate of $2.52. Each cent on the property tax rate generates approximately $85,000 in revenue.

Review

The appropriation ordinance reflects the budgeted expenditures of City and School Funds including debt servicing, utility funds and special revenue funds of $196,189,249. Of this amount, the General Fund budget shall represent $23,219,384 for municipal expenditures.

The City’s fiscal 2017 operating transfer to the Oak Ridge Schools was $14,955,915 with an additional transfer of $538,048 for nonrecurring (one-time) funding for debt service payments and other related nonrecurring capital project expenses. For fiscal 2018, the Oak Ridge Schools has requested that the $538,048 in nonrecurring funding become recurring and has requested an additional $317,762 for a total operational funding amount of $15,811,725. The additional $317,762 in requested School funding from fiscal 2017 levels rounds to four (4) cents on the property tax rate.

Scheduling

First reading of the appropriation ordinance will occur at the June 5, 2017 City Council meeting, with second reading occurring the following Monday, June 12, 2017. The City has advertised for two (2) public hearings to occur as part of the consideration of the ordinance with the June 12, 2017 public hearing serving as the official Charter requirement.

Recommendation

Adoption of the attached ordinance is recommended.

Mark S. Watson

RE: RESOLUTION SUPPORTING THE UNITED STATES NUCLEAR REGULATORY COMMISSION’S PREPARATION OF AN ENVIRONMENTAL IMPACT STATEMENT AS PART OF THE REVIEW OF THE TENNESSEE VALLEY AUTHORITY’S EARLY SITE PERMIT FOR THE CLINCH RIVER NUCLEAR SITE

An item for the June 5th City Council meeting agenda is the adoption of the attached resolution supporting the United States Nuclear Regulatory Commission’s (NRC) preparation of an Environmental Impact Statement (EIS) in response to the Tennessee Valley Authority’s (TVA) submission of an early site permit (ESP) application for the Clinch River Nuclear (CRN) Site. The CRN Site is located in the Roane County portion of the City of Oak Ridge, and is TVA’s proposed location for the possible construction of a Small Modular Reactor (SMR).

The TVA submitted the ESP application in May 2016. The notice of the NRC’s receipt of the application was published in the Federal Register on June 23, 2016, and the notice of the NRC’s “docketing” of the application was published on January 12, 2017.

On April 13, 2017, the NRC published a notice in the Federal Register of the agency’s intent to prepare an EIS as part of the review of the TVA’s ESP. The application uses technical information from various plant designs to assess the suitability of the CRN Site for any future construction and operation of a nuclear power plant. The NRC held two public “scoping” meetings in Oak Ridge on May 15th to accept public comments on the agency’s intent to prepare an EIS.

This resolution aligns with previous policy positions by the Oak Ridge City Council to encourage the development of SMR technology. The deployment of one or more SMRs could possibly serve as a future power source and economic development opportunity for the City of Oak Ridge.

Should Council adopt the resolution, it should be transmitted to the NRC by June 12, 2017 at the following address:

Staff recommends adoption of the resolution.

II. Introduction
Pursuant to part 52 of title 10 of the Code of Federal Regulations (10 CFR), on May 12, 2016, TVA submitted an application for an ESP for the Clinch River Nuclear (CRN) Site, located on approximately 1,200 acres in Roane County, Tennessee, along the Clinch River, approximately 25 miles west-southwest of downtown Knoxville, Tennessee.

III. Further Information
A notice of receipt and availability of the application, including the environmental report (ER), was published in the Federal Register on June 23, 2016 (81 FR 40929). A notice of acceptance for docketing of the
application for the ESP was published in the Federal Register on January 12, 2017 (82 FR 3812). A notice of hearing and opportunity to petition for leave to intervene in the proceeding on the application was published in the Federal Register on April 4, 2017, (82 FR 16436).

The purposes of this notice are to inform the public that the NRC staff will be preparing an environmental impact statement as part of the review of the application for the ESP and to provide the public with an opportunity to participate in the environmental scoping process as defined in 10 CFR 51.29.

In addition, as outlined in 36 CFR 800.8(c), "Coordination with the National Environmental Policy Act," the NRC staff plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA). Pursuant to 36 CFR 800.8(c), the NRC staff intends to use the process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth on 36 CFR 800.3 through 800.6.

In addition, as outlined in 10 CFR 51.45 and 51.50, TVA submitted the environmental ER as part of the application; the ER is available in ADAMS under Accession No. ML16144A145. The application may also be viewed on the NRC's public Web site at https://www.nrc.gov/reactors/new-reactors/esp/clinching-river.html. In addition, the Oak Ridge Public Library, 1401 Oak Ridge Turnpike, Oak Ridge, Tennessee, and the Kingston Public Library, 1004 Bradford Way, Kingston, Tennessee, have agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS as part of the review of the application for the ESP at the CRN Site. Possible alternatives to the proposed action (issuance of the ESP for the CRN Site) include no action and alternate sites. As set forth in 10 CFR 51.20(b)(1), issuance of an ESP under 10 CFR part 51 is an action that requires an EIS. This notice is being published in accordance with NEPA and the NRC's regulations in 10 CFR part 51.

The NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal Government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

a. Define the proposed action that is to be the subject of the EIS;

b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;

c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;

d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to but not part of the scope of the EIS being considered;

e. Identify other ER and consultation requirements related to the proposed action;

f. Identify parties consulting with the NRC under the NHPA, as set forth in 36 CFR 800.8(c)(1)(i);

g. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule;

h. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and

i. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

a. The applicant, TVA;

b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;

c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;

d. Any affected Indian Tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who intends to petition for leave to intervene in the proceeding, or who has submitted such a petition, who is admitted as a party.

IV. Public Scoping Meeting

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC will hold two identical public scoping meetings for the EIS regarding the TAV ESA application.

The scoping meetings will be held at Pollard Technology Conference Center Auditorium, 210 Badger Avenue, Oak Ridge, Tennessee on May 15, 2017. The meeting will convene at 2:00 p.m. and will continue until approximately 4:00 p.m. The second meeting will convene at 7:00 p.m., with a repetition of the overview portions of the first meeting, and will continue until approximately 9:00 p.m. The meetings will be transcribed and will include the following:

1. An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the EIS, and the proposed review schedule; and
2. The opportunity for interested government agencies, organizations, and individuals to submit comments, suggestions on the environmental issues or the proposed scope of the EIS.

Additionally, the NRC staff will host informal discussions for 1 hour prior to the start of each public meeting. No formal comments on the proposed scope of the EIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Ms. Patricia Vokoun by telephone at 1-800-397-4209, 301-415-4737, or by email at allrequests@nrc.gov. Written comments must be received no later than May 7, 2017. Members of the public may also register to speak at the meeting prior to the start of the session. Individual oral comments may be

limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the EIS. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Ms. Vokoun’s attention no later than May 1, 2017, so that the NRC staff can determine whether the request can be accommodated. Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the conclusions reached on the scope of the environmental review including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address and will make this summary publicly available. The NRC staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate Federal Register notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the address in Section I.A. of this notice and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Dated at Rockville, Maryland, this 7th day of April, 2017.
